Can you believe we are already 4 weeks into our first term this year. We have been busy working towards our final year shows as well as working on technique and skills in all 3 of our subjects we provide, Dance, Drama and Singing. We want to say well done to every one working so hard the last few weeks, what an excellent way to start the year. We are very excited for what's to come.

AUDITIONS – Well done to everyone who tried out for the Advance classes. We had a very big turnout this year and only a small number of places available. Congratulations to those who were successful in making advanced. We can't wait to start working with you all. For those who did not make it this year, please do not be disheartened. Keep working hard in class and with progression, maybe you can make it next year.
